# MS842P QUICK START GUIDE

unitech

The Unitech MS842P Wireless Scanner
Installation Instructions & Popular Configuration Barcodes
## SETUP AND INSTALLATION

The following steps will walk you through the installation process.
## STEP 1: POWER ON

Switch the power button to the on position.

## STEP 2: CHARGE

Connect the power supply cable to the bottom of the MS842P and to an electrical outlet. Charge for at least 5 hours.

## STEP 3: SCAN DONGLE

Scan the barcode on the USB Dongle.

## STEP 4: CONNECT DONGLE TO HOST

Plug the USB Dongle to a free USB port of a host computer. The MS842P is now ready to use.

## TEST & FINISH

Open a word processing program such as Microsoft Word or Notepad on your host. Now scan the following barcode:

If the word "Unitech" appears on the screen you have succesfully installed your scanner. Congratulations!

## SETTINGS AND CONFIGURATION

The following section covers the most common configuration settings for your MS842P scanner.

For additional configuration options please visit **unitechscanners.com/MS842P** and select the "Download" tab. You will find the User's Manual and a variety of other resources.

## FLASH MODE

Flash Mode

Scan here to switch to Flash Mode from the default Trigger Mode. In Flash mode, the MS842P will function automatically. It will scan at a set interval.

## TRIGGER MODE

Manual Trigger

Scan here to switch back to Trigger Mode. In Trigger Mode, the MS842P will scan only when the scanner button is pressed.

## TAB MODE

Tab Mode

You may wish to set your scanner to "Tab Mode." In this mode, data will tab over to the next column as you scan instead of jumping to the next line. Scan here to switch to Tab Mode from the default Enter Mode.

## TAB MODE CONT.

| | | | |
|---|---|---|---|
| 1 | 0 | 0 | 9 |

Now scan these barcodes in the following order: 1, 0, 0, 9. Please make sure the "x" marker is in the center of the barcode as you scan.

## TAB MODE CONT.

Enter

Scan here to enter your settings. You are now in Tab Mode.

## ENTER MODE

Scan here to return to the default Enter Mode from Tab Mode. Data will now jump to the next line as you scan.

## HOW CAN WE HELP YOU?

The MS842P is a plug-and-play wireless laser scanner. It does not require a driver and should be recognized as a generic HID device by your computer, similar to a standard keyboard. This allows you to scan into any field that you could normally type into.

Unitech's professional support team is available to quickly answer questions or technical-related issues. Should equipment issues occur, please contact a Unitech Service Representative at (800) 861-8648 or visit **us.ute.com** for more information.
