

HT730 Boot Case

Quick Start Guide

V1.1

How to put the boot case on HT730

- 1). Slide HT730 into the bottom of boot case.

- 2). Snap in the top two corners of HT730 into the boot case, and make sure HT730 is secured in the boot case.

How to remove the boot case from HT730

- 1). Grab the boot case from the middle, and pry HT730 from the boot case.

- 2). Pry the boot case from both edge of the top corner, and take HT730 out.

Notice: Please be noted the boot case is not for Long Range Engine version. The boot case is only for Standard Range Engine and without Engine version.
